

ICS20 PEER REVIEW

Name or URL of the software being evaluated: _____

Name of the tutorial file posted on the WIKI: _____

Name of the student(s) who prepared the tutorial: _____

Name of the student completing this peer review: _____

Peer Edit Rubric: Total Marks (15 - Communication)

1. The Tutorial includes all the required components.
2. The Layout should be clean, with good white space and clear, well-sized fonts.
3. Spelling, grammar and language are correct.
4. Instructions are direct, simple, easy to understand and not wordy.
5. There is not TOO MUCH text!
6. Graphics, screen captures, and photographs support the text, are a good size and easy to read/view.
7. There is sufficient information to get started comfortably with the software, and directions for further exploration.

OTHER COMMENTS.

Please note that both your tutorial and your review of the tutorial count towards your mark on this project.
